¹ Until within recent years the appointment or election of a President pro tempore was held by the Senate to be for the occasion only, so that more than one appears in several sessions and in others none was chosen. Since Mar. 12, 1890, they have served until "the Senate otherwise ordered."

² The Constitution (art. I, sec. 4) provided that "The Congress shall assemble at least once in every year * * * on the first Monday in December, unless they shall by law appoint a different day." Pursuant to a resolution of the Continental Congress, the first session of the First Congress convened Mar. 4, 1789. Up to and including May 20, 1820, 18 acts were passed providing for the meeting of Congress on other days in the year. Since that year Congress met regularly on the first Monday in December until 1934, when the twentieth amendment to the Constitution became effective, changing the meeting of Congress to Jan. 3. The first and second sessions of the First Congress were held in New York City; subsequently, including the first session of the Sixth Congress, Philadelphia was the meeting place; since then Congress has convened in Washington.

³ Elected to count the vote for President and Vice President, which was done Apr. 6, 1789, a quorum of the Senate then appearing for the first time. John Adams, Vice President, appeared Apr. 21, 1789, and took his seat as President of the Senate.

⁴ Elected Speaker pro tempore for Apr. 20, 1798, and again for May 28, 1798.

CAPITOL BUILDINGS AND GROUNDS

THE CAPITOL

This building is situated on a plateau 88 feet above the level of the Potomac River and covers an area of 175,170 square feet, or approximately 4 acres. Its length, from north to south, is 751 feet 4 inches; its greatest width, including approaches, is 350 feet; and the geographic position of the head of the Statue of Freedom surmounting the dome is described by the U.S. Coast and Geodetic Survey as latitude 38°53'22.909" north and longitude 77°00'33.706" west from Greenwich.

Its height above the base line on the east front to the top of the Statue of Freedom is 287 feet 5½ inches. The dome is built of iron, and the aggregate weight of material used in its construction is 8,909,200 pounds.

The Statue of Freedom, 19 feet 6 inches in height, surmounting the dome is entirely of bronze and weighs 14,985 pounds. It was modeled by Thomas Crawford, father of Francis Marion Crawford, the novelist, in Rome, Italy, and the plaster model shipped to this country. It was cast in bronze at the shops of Clark Mills, near the Bladensburg Road in Northeast Washington. The cost of the bronze casting and the expenses in connection therewith were \$20,796.82, and, as the sculptor Crawford was paid \$3,000 for the plaster model, the entire cost of the statue, exclusive of erection, was \$23,796.82. It was erected and placed in its present position December 2, 1863.

SELECTION OF A SITE FOR THE NATIONAL CAPITAL

When this Nation emerged victorious from its struggle for liberty, it had no site for its Federal Government. The Continental Congress, either through necessity or voluntarily, met in eight different cities: Philadelphia, Baltimore, Lancaster, York, Princeton, Annapolis, Trenton, and New York City.

The subject of a permanent Capital for the General Government of the United States was first approached in Congress on the 30th day of April 1783.

The Constitution of the United States, provided in Article I, Section 8, the following:

"To exercise exclusive legislation in all cases whatsoever over such district (not exceeding ten miles square) as may, by cession of particular States, and the acceptance of Congress, become the seat of the Government of the United States,"

The State of Maryland, by Act approved December 23, 1788, did cede to Congress "any district in this State, not exceeding ten miles square,"

The State of Virginia, by Act approved December 3, 1789, also ceded "not exceeding ten miles square, or any lesser quantity"

These cessions of territory were accepted by Act of Congress approved July 16, 1790. "That a district or territory not exceeding ten miles square to be located as hereafter directed on the river Potomac, at some space between the mouths of the Eastern branch and Conogocheague, be, and the same is hereby, accepted for the permanent seat of the Government of the United States:"

President Washington, by Proclamation dated January 24, 1791, designated the experimental boundary lines of the District, as beginning at a point on Hunting Creek (in Virginia where it enters the Potomac River) and ordered the Commissioners appointed by him on January 22, 1791, "to survey, and by proper metes and bounds to define and limit the part within the same which is hereinbefore directed for immediate location and acceptance;"

The lines designated in the proclamation of January 24, 1791, were approved by Congress but as the original act of July 16, 1790, required the location of the District "above the mouth of the Eastern Branch or Anacostia river," the act was amended March 3, 1791, as follows: "and that it shall be lawful for the President to make any part of the said territory, below the said limit, and above the mouth of Huntington (sic) Creek, a part of the said district," and also provided "That nothing herein contained shall authorize the erection of the public buildings otherwise than on the Maryland side of the river Potomac, as required by the aforesaid act."

After an agreement with the landowners of the area within the city proper on March 30, 1791, President Washington by proclamation on the same day, fixed

the boundary as "Beginning at Jones's Point, being the upper Cape of Hunting Creek, in Virginia, and at an angle in the outset of forty-five degrees west of the north and running in a direct line ten miles, for the first line; then beginning again at the same Jones's Point, and running another direct line, at a right angle with the first, across the Potomac ten miles, for the second line; thence from the termination of the said first and second lines, running two other lines of ten miles each, the one crossing the Eastern Branch aforesaid and the other the Potomac, and meeting each other in a point."

On April 15, 1791, the cornerstone of the lines of the Federal territory was laid at Jones's Point "with great solemnity" in the presence of the Commissioners and a large number of persons.

Major Pierre Charles L'Enfant was entrusted to prepare plans for laying out the city into streets, avenues, squares, lots, etc., and the plan was carried out under the direction of Andrew Ellicott.

On March 2, 1797, President Washington, by proclamation, directed the trustees, Thomas Beall of George, and John M. Gantt, to "convey all the streets in the city of Washington as they are laid out and delineated in the plan of the said city . . . to the use of the United States forever, . . ."

The proclamation also described the public appropriations (later called reservations) as areas for public domain of which number two, including the Mall, East of 15th Street, was to be Capitol Square.

The area selected for "the Congress House" was on Jenkins' Hill, a part of Cerne Abbey Manor, owned by Daniel Carroll of Duddington, who was one of the original proprietors and a signer of the agreement of March 30, 1791, wherein it recites, "For the streets, the proprietors shall receive no compensation, but for the squares or lands in any form which shall be taken for public buildings or any kind of public improvements or uses, the proprietors whose land shall be so taken shall receive at the rate of £25 per acre, to be paid by the public." (Note: a pound of currency at that time was equal to \$2.66+ or \$66.66 per acre.)

Daniel Carroll of Duddington was a cousin of Daniel Carroll of Maryland, one of the original Commissioners of the city appointed by President Washington on January 22, 1791.

By Act of Congress approved July 9, 1846 (9 Stat. 35), the entire area previously ceded by the State of Virginia on December 3, 1789, was returned to that State as not being required or necessary for the use of the District.

PLANS FOR THE CAPITOL BUILDING

Following the selection of a site for the Capital, some little time elapsed before advertisements appeared offering a prize of \$500, or a medal of the same value, to be awarded for the "most approved plan" for a Capitol Building. Some 14 plans were submitted—some writers claim 16—but of these plans none was wholly satisfactory. In October 1792, Dr. William Thornton, a versatile physician of Tortola, West Indies, requested by letter an opportunity to present a plan as within the terms of the original advertisement. The request was granted and his plan accepted by the Commissioners on April 5, 1793.

President Washington approved the plan on July 25, 1793, and on September 18, 1793, the cornerstone was laid with Masonic ceremonies in the southeast corner of the north section of the building. Thornton's plan provided for a central section nearly square in area, surmounted by a low dome, this central section to be flanked on the north and south by rectangular buildings, with a length of 126 feet and a width of 120 feet. The northern wing was the first completed, and in this small building the legislative and judicial branches of the Government, as well as the courts of the District of Columbia, were accommodated at the time of the removal of the Government from Philadelphia, the legislative in 1800 and the judicial in 1801.

BUILDING OF THE CAPITOL

Development of the Thornton plan began with the construction of the first unit of the building, now known as the northern, or Supreme Court section. Three architects were employed on this work—Stephen H. Hallet, George Hadfield and James Hoban, architect of the White House. The construction of the southern unit, now known as the Statuary Hall section was carried out by Benjamin H. Latrobe, and in 1807 the House of Representatives occupied its new legislative chamber. Previously, the House had met in the Supreme Court section of the Capitol and later in a temporary brick structure within the walls of the southern portion of the building, known as the Oven. The north wing was completed in 1800 and the south wing in 1811. A wooden passageway connected

the two wings of the original building, and was still in use when the building was burned by the British on August 24, 1814.

The work of reconstructing the damaged interiors was begun by Latrobe, who continued the restoration until November 1817, when he resigned, and Charles Bulfinch, a prominent architect of Boston, Massachusetts, was appointed architect to continue the restoration and complete the central portion of the building. Bulfinch was occupied with this work from 1818 until its completion in 1829. The cost of this original building, including the grading of the grounds, repairs, etc., up to the year 1827, was \$2,432,851.34.

During the period of restoration and the completion of the central portion, Congress met for the first session after the fire, in Blodget's Hotel at Seventh and E Streets NW., and soon thereafter in a building erected for that purpose on First Street NE., on part of the site now occupied by the Supreme Court Building. Congress remained here until 1819 when the Capitol was once again ready for occupancy.

The original Capitol as completed in 1829 was built of Aquia Creek sandstone from Virginia. The structure was 351 feet 7½ inches in length at ground level and 282 feet 10½ inches in depth at ground level, including the East Portico and steps. The central element of the building was surmounted by a low dome, which was to be a dominant feature of the Capitol for more than a quarter of a century.

Following the completion of the original Capitol in 1829, and the termination of the services of Charles Bulfinch the same year, such architectural services as were needed were performed by different architects until 1851. By this date the expanding needs of Congress had made additions to the building necessary and plans for the present Senate and House wings drawn by Thomas U. Walter, an architect of Philadelphia, Pennsylvania, were selected in preference to others submitted.

On July 4, 1851, the cornerstone of the extensions was laid in the northeast corner of the House wing. Daniel Webster delivered an address at the ceremony, and portions of this oration have been quoted frequently through the years. The exterior marble for the Senate and House wings came from quarries at Lee, Massachusetts, and the marble for the columns from quarries at Cockeysville, Maryland.

The work of constructing the Senate and House wings was carried out under the architectural direction of Thomas U. Walter from 1851 until 1865, during his tenure as Architect of the Capitol, and thereafter certain uncompleted details were supervised by his successor, Edward Clark, whose service as Architect of the Capitol began in 1865 and continued until 1902. The present House Chamber was occupied for legislative purposes December 16, 1857, and the Senate Chamber January 4, 1859.

The addition of the Senate and House wings made the construction of a new dome necessary for the preservation of good architectural proportions. The dome of the original central portion of the Capitol was built of wood and covered with copper. This low dome, designed by Bulfinch, was replaced with the present cast iron structure, the work beginning in 1856 and being completed in 1865. The overall width of the dome at the base is 135 feet 5 inches. The rotunda, or interior of the dome, is 96 feet in diameter and its height from the floor to the apex of the fresco in the canopy is 180 feet 3 inches.

The Capitol has a floor area of 16½ acres, with approximately 540 rooms devoted to office, committee, storage, restaurant and other purposes. There are 658 windows and approximately 850 doorways. The dome receives light through 108 windows, and from the Architect's office on the basement floor to the top of the dome there is a winding stairway with 365 steps.

During the period from July 1949 to January 1951, under appropriations totaling \$5,102,000, the roofs and skylights of the Senate and House wings and the connecting corridors were replaced with new roofs of concrete and steel, covered with copper.

The cast-iron and glass ceilings of the Senate and House Chambers were replaced with new ceilings of stainless steel and plaster, and a laylight of carved glass and bronze was placed in the center of each ceiling. Alterations and improvements were made to the interior of each Chamber, the cloakrooms and adjacent areas, and included improvements in air conditioning, lighting and acoustics. These alterations were the first major changes in the Senate and House roofs and Chambers in the 90 years since their initial occupancy. The roof of the central portion, however, had been reconstructed and fireproofed in 1902.

Plans for remodeling the Senate and House Chambers incorporated design elements from sources of Federal architecture used by Thornton and Latrobe in the

Supreme Court and Statuary Hall sections of the Capitol, and from other buildings of the early Republic.

During the renovation program the Senate vacated the Chamber on three occasions to allow the work to progress. The first time was in 1940 when the temporary supports were installed under the old ceiling of the Senate Chamber. On this occasion, the Senate vacated its Chamber November 22, 1940, and returned to its Chamber January 3, 1941. The second time was in 1949 when the first-stage construction work was performed. On this occasion, the Senate vacated its Chamber July 1, 1949, and returned to its Chamber January 3, 1950. The third time was in 1950 when the second- or final-stage construction work was performed. On this occasion, the Senate vacated its Chamber August 11, 1950, and returned to its refurbished Chamber January 3, 1951.

In order that the House roof and Chamber improvements might be accomplished, it was necessary for the House to vacate its Chamber and meet in the caucus room in the Longworth House Office Building on three different occasions. The first time was in 1940 when the temporary supports were installed under the old skylight ceiling of the House Chamber. On this occasion, the House vacated its Chamber November 22, 1940, and returned to its Chamber January 3, 1941. The second time was in 1949 when the first-stage construction work was performed. On this occasion, the House vacated its Chamber July 1, 1949, and returned to its Chamber January 3, 1950. The third time was in 1950 when the second- or final-stage construction work was performed. On this occasion, the House vacated its Chamber September 1, 1950, and returned to its refurbished Chamber January 3, 1951.

EXTENSION OF THE CAPITOL

Under legislation contained in the Legislative Appropriation Act, 1956, as amended by Public Law 406, 84th Congress, provision is made for extension, reconstruction, and replacement of the east central portion of the United States Capitol and other related improvements.

Under the approved plans, a new front in marble, faithfully reproducing the design of the old sandstone front, has been constructed 32½ feet east of the old front. The east walls of the connections between the central front and the Senate and House wings have also been reproduced to the east. The old sandstone walls have remained in place and become a part of the interior wall construction.

This work was begun in 1958 and completed in 1962. The project was carried forward by the Architect of the Capitol under the direction of the Commission for Extension of the United States Capitol created by Public Law 406, 84th Congress.

Authorized cost for this work, including repairs to and rehabilitation of the dome, construction of a subway terminal under the Senate wing steps and reconstruction of such steps, cleaning of the Senate and House wings, birdproofing the building, furniture and furnishings for the new areas, and providing improved lighting throughout the building, totals \$24 million. In addition, \$125,000 has been appropriated for an engineering study of the condition of the West Central Front and this study has been completed.

CAPITOL GROUNDS

The original Capitol Grounds, at one time a part of Cerne Abbey Manor, were, at an early date occupied by a subtribe of the Algonquin Indians known as the Powhatans, whose council house was then located at the foot of the hill.

These grounds, part of original reservation 2, were acquired under President Washington's proclamations of 1790 and 1797, for use as a site for the United States Capitol Building. These proclamations authorized the appropriation of all of reservation 2 which, in its entirety, included the "Capitol Square and the Mall east of Fifteenth Street West."

Additional ground (squares 687-688) was acquired under appropriations provided by Congress in 1872 and 1873 in order to obtain a better landscape surrounding in keeping with the Senate and House wings which had been added to the building since the acquisition of the original site. The purchase of this additional property completed the acquisition of the area known as the old section of the Capitol Grounds, totaling, in all 58.8 acres.

In the immediately ensuing years, under a plan developed by Frederick Law Olmsted of New York, the terraces were built on the north, west, and south sides of the building from 1884 to 1892; the entire grounds were developed and improved from 1874 to 1892.

During the period 1910-35 the Capitol Grounds were further enlarged and improved by the purchase, annexation, and development of 61.4 additional acres located north of Constitution Avenue.

During the period 1955 to 1957 part of the new area, located over and in the vicinity of the Senate Garage, was reconstructed from funds provided in the Second Supplemental Appropriation Act, 1955.

Public Law 570, Seventy-ninth Congress, approved July 31, 1946, redefined the boundaries of the Capitol Grounds to include as a part of the Capitol Grounds the areas immediately surrounding the Senate and House Office Buildings and certain border streets and sidewalks, with the result that the area of the Capitol Grounds, developed as a park area, now totals 131.1 acres.

HOUSE OFFICE BUILDINGS

CANNON HOUSE OFFICE BUILDING (OLD BUILDING)

An increased membership of the Senate and House resulted in a demand for additional rooms for the accommodation of the Senators and Representatives, and on March 3, 1903, the Congress authorized the erection of a fireproof office building for the use of the House Members as office and committee rooms. The first brick was laid July 5, 1905, in square No. 690, and formal exercises were held at the laying of the cornerstone on April 14, 1906, in which President Theodore Roosevelt participated. The building was completed and occupied January 10, 1908. A subsequent change in the basis of congressional representation made necessary the building of an additional story in 1913-14. The total cost of the building, including site, furnishings, equipment, and the subway connecting the House Office Building with the United States Capitol, amounted to \$4,860,155. This office building contains about 500 rooms, and was considered at the time of its completion fully equipped for all the needs of a modern building for office purposes.

Pursuant to authority in the Second Supplemental Appropriation Act, 1955, and subsequent action of the House Office Building Commission, the Cannon Building is to be remodeled beginning early in 1966. The estimated cost of this work, \$5,200,000, is included in total appropriation of \$134,500,000 for the additional House Office Building Project.

LONGWORTH HOUSE OFFICE BUILDING (NEW BUILDING)

Under legislation contained in authorization act of January 10, 1929, and in the urgent deficiency bill of March 4, 1929, provisions were made for an additional House Office Building, to be located on the west side of New Jersey Avenue (opposite the first House Office Building).

The cornerstone was laid June 24, 1932, and the building was completed and ready for beneficial occupancy April 20, 1933. It contains 251 two-room suites, 16 committee rooms, each suite and committee room being provided with a store-room. Eight floors are occupied by Members; the basement and subbasement by shops and mechanics needed for the proper maintenance of the building. The cost of this building, including site, furnishings, and equipment, was \$7,805,705.

RAYBURN HOUSE OFFICE BUILDING (ADDITIONAL HOUSE OFFICE BUILDING)

AND OTHER RELATED CHANGES AND IMPROVEMENTS

Under legislation contained in the Second Supplemental Appropriation Act, 1955, provision was made for construction of an additional fireproof office building and other appurtenant and necessary facilities for the use of the House of Representatives; for acquisition of real property located south of Independence Avenue in the vicinity of the Capitol Grounds for purposes of construction of such building and facilities and as additions to the Capitol Grounds; for changes to the present House Office Buildings and changes or additions to the present subway systems.

All work is being carried forward by the Architect of the Capitol under the direction of the House Office Building Commission at an authorized limit of cost to be fixed by such Commission. Appropriations totaling \$134.5 million have been provided to date for carrying forward work under this project through the fiscal year 1966.

Under this program, property consisting of seven city squares has been acquired. Contracts have been let for necessary architectural and engineering services for the project; for reconstruction of a section of Tiber Creek sewer running through the site of the new building; for excavations and foundations, structural steel, superstructure, furniture and furnishings for the new building; for a cafeteria in the courtyard of the existing Longworth House Office Building; and for an underground garage in the courtyard of the Cannon House Office Building and two underground garages in Squares 637 and 691, south of the Rayburn and Longworth Buildings.

The Rayburn Building is connected to the Capitol by a subway from the center of the Independence Avenue upper garage level to the southwest corner of the Capitol.

The building contains 169 congressional suites; nine full-committee hearing rooms for nine standing committees, 16 subcommittee hearing rooms, committee staff rooms and other committee facilities; a large cafeteria and other restaurant facilities; an underground garage accommodating 1,600 automobiles; and a variety of liaison offices, press and television facilities, maintenance and equipment shops or rooms, and storage areas. The building has nine stories and a penthouse.

The cornerstone was laid May 24, 1962, by Hon. John W. McCormack, Speaker of the House of Representatives. President John F. Kennedy participated in the cornerstone laying and delivered the address.

A portion of the basement floor was occupied beginning March 12, 1964, by House of Representatives personnel moved from the George Washington Inn property. Full occupancy of the Rayburn Building, under the room-filing regulations, was begun February 23, 1965, and completed April 2, 1965.

SENATE OFFICE BUILDINGS

OLD BUILDING

The demand for a building to be used for offices was greater for the Representatives, on account of the large number forming the membership of that body, and because the Members of the Senate were supplied with additional office space by the purchase of the Maltby Building, located on the northwest corner of B Street and New Jersey Avenue NW. However, the acquisition of this building supplied but a temporary purpose, and its condemnation as an unsafe structure created on the part of the Senators a desire for safer and more commodious quarters. Accordingly, under authorization of act of April 28, 1904, square 686, on the northeast corner of Delaware Avenue and B Street NE., was purchased as a site for the Senate Office Building, and the plans for the House Office Building were adapted for the Senate Office Building, the only change being the omission of the fourth side of the building fronting on First Street NE., this being planned for but not completed. The cornerstone of this building was laid without special exercises on July 31, 1906, and the building was occupied March 5, 1909. In June 1933 the building was completed by the erection of the First Street wing, construction of which was commenced in 1931, together with alterations to the C Street facade, and construction of terraces, balustrades, and approaches. The cost of the completed building, including site, furnishings, equipment, and the subway connecting the Senate Office Building with the United States Capitol, was \$8,390,892.

NEW BUILDING

Under legislation contained in the Second Deficiency Appropriation Act, 1948, Public Law 785, 80th Congress, provision was made for an additional office building for the United States Senate with limits of cost of \$1,100,000 for acquisition of the site and \$20,600,000 for constructing and equipping the building.

The authorized limit of cost for construction and equipment of the building was increased to \$23,446,000 by the Legislative Branch Appropriation Act, 1958, and Public Law 85-85, 85th Congress and to \$24,196,000 by the Second Supplemental Appropriation Act, 1959, Public Law 86-30, 86th Congress. All work was carried forward by the Architect of the Capitol under the direction of the Senate Office Building Commission.

The site was acquired and cleared in 1948-49 at a total cost of \$1,011,492.

A contract for excavation, concrete footings and mats for the new building was awarded in January 1955, in the amount of \$747,200. Ground breaking ceremonies were held January 26, 1955.

A contract for the superstructure of the new building was awarded September 9, 1955, in the amount of \$17,200,000 and the building is now completed. The cornerstone was laid July 13, 1956.

As a part of this project, a new underground subway system has been installed from the Capitol to both the Old and New Senate Office Buildings.

An appropriation of \$1,000,000 for furniture and furnishings for the new building was provided in the Supplemental Appropriation Act, 1958, Public Law 85-170, 85th Congress. An additional appropriation of \$283,550 was provided in the Second Supplemental Appropriation Act, 1959, Public Law 86-30, 86th Congress. The building was accepted for beneficial occupancy October 15, 1958.

CAPITOL POWER PLANT

During the development of the plans for fireproof office buildings for occupancy by the Senators and Representatives, the question of heat, light, and power was considered. The Senate and House wings of the Capitol were heated by separate heating plants. The Library of Congress also had in use a heating plant for that building, and it was finally determined that the solution of the heating and lighting, with power for elevators, could be adequately met by the construction of a central power plant to furnish all heat and power, as well as light, for the Capitol group of buildings.

Having determined the need of a central power plant, a site was selected in Garfield Park, bounded by New Jersey Avenue, South Capitol Street, Virginia Avenue, and E Street SE. This park being a Government reservation, an appropriation of money was not required to secure title. The determining factors leading to the selection of this site were its nearness to the tracks of the Pennsylvania Railroad and its convenient distance to the river and the buildings to be served by the plant.

The dimensions of the Capitol Power Plant, which was constructed under authorization of act of April 28, 1904, and completed and placed in operation in 1910, are 244 feet 8 inches by 117 feet, with a maximum height of 85 feet. A later additional building, for accommodation of shops and storerooms, is located near the Power Plant and is built of selected red brick, it being 90 feet long, 50 feet wide, and 2 stories high. The main building is supported upon concrete foundations resting upon 903 simplex reinforced concrete piles (originally 790; 113 added in 1951-52); the superstructure is of red brick. There are two radial brick chimneys 174 feet in height (reduced from 212 feet to 174 feet in 1951-52) and 11 feet in diameter at the top.

The buildings originally served by the Power Plant were connected by a reinforced-concrete steam tunnel 7 feet high by 4½ feet wide, with walls approximately 12 inches thick. This tunnel originated at the Power Plant and terminated at the Senate Office Building, with connecting tunnels for the Cannon House Office Building, the Capitol, and the Library of Congress. Subsequently it was extended to the Government Printing Office and the Washington City Post Office, with steam lines extended to serve the Longworth House Office Building, the Supreme Court Building, the Annex to the Library of Congress, and the relocated Botanic Garden.

Under authority of Public Law 413, 81st Congress, a new reinforced concrete walk-through tunnel, 10 feet 6 inches wide by 11 feet high, with walls of a minimum thickness of 14 inches, containing steam lines, condensate return lines, and chilled water lines, was constructed during the period 1952-54 from the Power Plant to the Old Senate Office Building. This tunnel was placed in service during the calendar year 1954, at which time the use of the section of the old tunnel under First Street between Independence Avenue and Constitution Avenue was discontinued. This East tunnel also serves the New Senate Office Building, the Supreme Court Building, and the two Library Buildings. The Capitol, the Cannon Building, the Longworth Building, and the Rayburn Building are served with steam for heating and chilled water for air-conditioning by the West distribution systems.

Three new steam generators, with a total steam generating capacity of 330,000 pounds per hour, were installed at the Plant during the period 1951-53 and were placed in service in the calendar year 1954, at which time the old boilers in use for 30 years were abandoned.

In September 1951 when the demand for electrical energy was approaching the maximum capability of the obsolescent turbo-generators at the Capitol Power Plant, arrangements were made under the authority of Public Law 413, 81st Congress, to purchase all electric service from the local public utility company and, simultaneously, to discontinue the generation of electrical energy at the Capitol Power Plant. The soundness of the judgment and the competence of the engineering analysis that prompted these actions has since been confirmed by the actual increased demand for electrical energy during the past 14 years. Since September 1951 the simultaneous demand resulting from the increasing needs of the Capitol, the Legislative Office Buildings, the Library of Congress Buildings, the Supreme Court Building and the Capitol Power Plant has increased from 13,000 kilowatts in 1951 to over 30,000 in 1965 and, during the same period, the energy consumption has increased from approximately 41 million kilowatt-hours to approximately 100 million kilowatt-hours annually.

Under authority of Public Law 413 the electrical distribution systems in all buildings and facilities under the jurisdiction of the Architect of the Capitol

have been converted from 25-cycle alternating current and direct-current energy to 60-cycle alternating-current energy. On January 11, 1963, the last of the five AC/DC motor-generator sets in the Dynamo Room in the Capitol was permanently shut down and the old equipment in this room has since been dismantled and removed from the building. On September 15, 1965, the last item of 25-cycle equipment was removed from service while the original coal-handling system at the Power Plant was being replaced by a new system.

In 1935 the Congress authorized the air-conditioning of the Capitol, Senate and House Office Buildings and provided therefor an appropriation of \$2,550,000 and, in 1937, an additional amount of \$1,672,000, including authorization for construction of a central refrigeration plant to serve the new air-conditioning systems. An addition to the Power Plant Building, 123 feet 2 inches long, 79 feet 6 inches wide, with a height of 37 feet 10 inches, was constructed to house six 800-ton reciprocating-type refrigeration machines, auxiliary apparatus and piping. This plant was placed in operation May 16, 1938, and was, at that time, the largest central chilled-water plant ever constructed. Under authority of Public Law 413, 81st Congress, the obsolete reciprocating-type refrigeration machines installed in 1938 were placed by four 2,200-ton centrifugal-type refrigeration machines thereby increasing the capacity of the plant from 4,800 to 8,800 tons. Also a new cooling tower was installed on the Capitol Power Plant Grounds to replace the old River Pump House which, until that time, supplied condensing water from the Anacostia River for the old steam-electric generating equipment and the reciprocating-type refrigeration machines. The River Pump House has since been transferred to the custody of the Government of the District of Columbia. The four new centrifugal-type refrigeration compressors were installed during the period 1955-57. In addition to the Capitol, the two Senate Office Buildings and the three House Office Buildings, this refrigeration plant now serves the Library of Congress Annex and the United States Supreme Court Building which were originally supplied with refrigeration for air-conditioning by separate isolated plants in each building. New air-conditioning facilities for the Main Building of the Library of Congress, authorized under Public Law 87-130, 87th Congress, now are being served by the central refrigeration plant and its chilled-water distribution system.

Under authority of Public Law 85-895, 85th Congress, a program for further expansion of the Capitol Power Plant was authorized, to be carried forward by the Architect of the Capitol at a total cost of \$6.5 million. This program provides for the necessary enlargement of the capacity of the plant and its distribution systems to supply heat and refrigeration for the Rayburn House Office Building completed in 1964, and other authorized improvements. Under this program two additional 1,100-ton refrigeration machines and a 6,600-ton cooling tower have been installed and placed in operation. Other work completed under this program included the installation of two more 2,200-ton refrigeration machines, piping and auxiliary equipment. In addition, the construction of a buried chilled pipe line extending from the southeast corner of the Old Senate Office Building to the west side of the central portion of the Capitol Building was completed in March 1963. The construction of this pipe line provides an interconnection between the existing East and West chilled-water distribution systems.

In anticipation of the installation of additional refrigeration machines, eight obsolete, disused boilers and four disused steam-turbine driven electric generators were removed from the Capitol Power Plant under the authority of Public Law 85-895. During the calendar year 1964 the installation of the two new aforementioned 2,200-ton refrigeration machines was completed and preliminary operating tests were performed successfully at the end of the 1964 cooling season. Also during the calendar year 1964, four new oil-fired steam generators were installed and these units were placed in service in the summer of 1965.

A new railroad siding was completed in 1964. The new tracks on the Capitol Power Plant Grounds accommodate eight loaded coal cars of 70 tons capacity each, and eight empty cars. The redesign of the track system has not only provided the coal delivery capacity needed for the increased heating load but it also has released for future expansion of the plant facilities about 3½ acres of plant property not previously available for such purpose. The new railroad siding also makes possible more expeditious handling of coal cars and has eliminated the hazards associated with car derailments experienced with the old system of tracks.

A new coal handling and conveying system capable of handling 200 tons of bituminous coal each hour is under construction and will be placed in operation in December 1965.

ORIGIN AND FORM OF GOVERNMENT

The District of Columbia was established under the authority and direction of acts of Congress approved July 16, 1790 and March 3, 1791, which were passed to give effect to a clause in the eighth section of the first article of the Constitution of the United States giving Congress the power—

“To exercise exclusive Legislation in all Cases whatsoever, over such District (not exceeding ten Miles square) as may, by Cession of particular States, and the Acceptance of Congress, become the Seat of the Government of the United States, and to exercise like authority over all Places purchased by the Consent of the Legislature of the State in which the Same shall be, for the erection of Forts, Magazines, Arsenals, dock-Yards, and other needful buildings;—”

The States of Maryland and Virginia made cessions contemplated by this clause in the years 1788 and 1789, respectively. From the cessions tendered by the two States was selected the territory for the permanent seat of the General Government. This territory was 10 miles square, lying on either side of the Potomac River at the head of navigation. Later, 1846, Congress retroceded to Virginia that portion ceded by it. The Maryland, or retained, portion is approximately 70 square miles.

The seat of government of the United States was first definitely named by the clause in the act entitled “An act providing a permanent form of government for the District of Columbia,” approved June 11, 1878, as follows: “That all territory which was ceded by the State of Maryland to the Congress of the United States, for the permanent seat of government of the United States, shall continue to be designated as the District of Columbia” (20 Stat. 102), although it had been incidentally mentioned as such in several preceding statutes.

The land within the ceded territory was owned by a number of people. In Georgetown, President Washington negotiated with the proprietors or landowners of that portion of the ceded territory selected as the site of the city of Washington, which comprised about 10 percent of the area of the present District of Columbia. On the second day, March 30, 1791, he concluded an agreement which was put in writing and signed by the proprietors. By it the President was given sole power to lay off streets as he pleased. These proprietors conveyed their holdings to trustees named by the President to hold title to the same during the laying out of the Federal city and then convey as agreed to the United States and the proprietors respectively. Under this agreement the proprietors donated to the United States all of the lands for the streets and one-half of the city lots throughout the entire city. Sites reserved by the United States for the public buildings, parks, and other public purposes were paid for by the United States in Maryland money the equivalent to \$66.66 per acre. Such payment, amounting to \$36,099, was made out of the proceeds from the sale of some of the lots which these proprietors had donated to the United States. This was the only purchase price paid by the United States for any part of the entire acquisition of 5,128 acres for the purpose of building the Capital City.

The land within the original city of Washington comprised a total of 6,111 acres and was divided to the United States 4,147 acres—3,606 acres for streets and 541 acres for public purposes. The remaining 1,964 acres was divided into squares and the squares into lots. The whole number of lots was 20,272—10,136 to the United States and the same number to the proprietors.

Thomas Jefferson, then Secretary of State, declared the liberality of the proprietors was “noble.”

The United States lots were sold from time to time, chiefly before 1800 and up to 1835, and brought \$740,024.45 (S. Doc. 247, 64th Cong., 1st sess., p. 23). This was a considerable sum as compared with the average annual income of the Federal Government during the 12 years from 1789 to 1800, it being about 13 percent of that average of about \$5,600,000. The lots which still remained the prop-

erty of the United States after gifts of them to charitable and literary institutions were sold about September 1865 for a moderate sum.

The proceeds from the sales of the Government lots were largely applied to the erection of the original Government buildings and improvements in their immediate neighborhood. The funds for these buildings were supplemented by grants of \$120,000 by the State of Virginia and \$72,000 by the State of Maryland (H. R. Report 269, 21st Cong., 1st sess., Doc. No. 5, p. 47). Both President Washington and President Jefferson expected the sale of these lots, if properly conserved, would not only provide ample funds for the erection of the public buildings without charge upon the lean Federal Treasury but would leave what Jefferson termed "the residuary interest of the city" which was intended to be used for streets and other city improvements. The failure of the Government to make these expected improvements so retarded the appreciation of values of the lots that the Government's prospective income from this source fell far short of expectations. The landowners who had so generously given their land to the Government as well as those who had been induced to purchase failed to realize the enhancement of value of their lots because of the failure of expected abutting and community improvements. The faith of Mr. Jefferson and the proprietors matched, but their fond hopes were not realized. The original proprietor of the land whereon is the Capitol Building, Daniel Carroll, of Duddington, in 1837 wrote "that the unfortunate proprietors are generally brought to ruin," who "were so wild as to suppose that the donation was so great the Government might pave the streets with ingots of gold or silver."

The city was planned and partly laid out by Maj. Pierre Charles L'Enfant, a French engineer. This work was perfected and completed by Maj. Andrew Ellicott. The building of the city and the erection of the public buildings were in charge of three commissioners selected by the President and subject to his direction.

When the Government establishment was moved in 1800, there existed within the 10 miles square two municipal corporations: the corporation of the city of Alexandria, incorporated by Virginia, and the corporation of the city of Georgetown, incorporated by Maryland.

The act of February 27, 1801, was the first legislation by Congress for the government of the District of Columbia following the removal to the permanent seat of government. While this act failed to set up a complete local government, it declared all of the laws of the States of Maryland and Virginia as then existing to be in force in the parts of the District ceded by the respective States. It created two counties, Washington County being the area outside of the cities of Washington and Georgetown on the Maryland side of the river, and Alexandria County being the area beyond the limits of the city of Alexandria on the Virginia side of the river. It also created the circuit court, the office of marshal of the District, the office of United States attorney for the District, justices of the peace for the two counties, a register of wills, and a judge of the orphans' court (2 Stat. 103).

The first government of the city of Washington consisted of a mayor appointed by the President of the United States and a city council elected by the people of the city. This was in 1802. The act chartering the city of Washington also created the levy courts, consisting originally of the justices of the peace of the respective counties (2 Stat. 115; 2 Stat. 773; 3 Stat. 195; 9 Stat. 230; 12 Stat. 384). The levy courts were given broad administrative powers over the counties of Washington and Alexandria, but had no judicial functions. At a later date the levy court of Washington County was composed of nine members appointed by the President (12 Stat. 799). Thus, there were within the 10 miles square five distinct local administrative units, namely (1) the corporation of Washington, (2) the corporation of Georgetown, (3) the county of Washington, (4) the corporation of Alexandria, and (5) the county of Alexandria. These were reduced to three units in 1846 with the retrocession of Alexandria city and county to the State of Virginia (9 Stat. 35; 9 Stat. 1000). The members of the city councils of the three municipalities were elected as were the mayors of Georgetown and Alexandria. In 1812 the city council was permitted to elect the mayor of Washington and in 1820 and thereafter the mayor was elected by the people (3 Stat. 583). The term of the mayor of Washington was for 2 years. This government continued until 1871.

By an act of Congress of February 21, 1871 the corporation of Washington, the corporation of Georgetown, and the levy court for Washington County were abolished, and the administration consolidated into a so-called territorial form of government. This government consisted of a governor, a board of public

works, a board of health, and a legislative assembly. This legislative assembly consisted of a council of 11 members and a house of delegates of 22 members. The District then also had a Delegate in the House of Representatives of the United States. The Governor, the board of public works, and council were appointed by the President of the United States, by and with the advice and consent of the Senate. The 22 members of the house of delegates and the Delegate in Congress were elected by the people. The District had a Delegate in Congress until March 4, 1875.

This form of government lasted for 3 years, until June 20, 1874, when Congress provided that the District should be governed by three commissioners, appointed by the President. This was known as the temporary form of government and lasted until July 1, 1878, when the present permanent commission government was set up (18 Stat. 116). In the creation of the temporary commission form of government in 1874 and the permanent form in 1878 no provision was made for the franchise, and for the first time in three-quarters of a century no part of the District exercised the right of suffrage. The present form of government was created by act of Congress approved June 11, 1878 (20 Stat. 102).

The District of Columbia has an area of 69.245 square miles of which 60.1 square miles are land. The river boundary is high-water mark along the Virginia shore of the Potomac River.

The local government of the District of Columbia is a municipal corporation having jurisdiction over the territory which was "ceded by the State of Maryland to the Congress of the United States for the permanent seat of the Government of the United States" (20 Stat. 102). This government is administered by a board of three Commissioners having general equal powers and duties (20 Stat. 103).

Two of these Commissioners, who must have been actual residents of the District for 3 years next before their appointment and have during that period claimed residence nowhere else, are appointed from civil life by the President of the United States and confirmed by the Senate for the term of 3 years each and until their successors are appointed and qualified.

The other Commissioner is detailed from time to time by the President of the United States from the Corps of Engineers of the United States Army, and shall not be required to perform any other military duty (ib.). This Commissioner shall be selected from the captains or officers of higher grade having served at least 15 years in the Corps of Engineers of the Army of the United States (26 Stat. 1113).

Three officers of the same corps, junior to said Commissioner, may be detailed to assist him by the President of the United States (26 Stat. 246). The senior officer of the Corps of Engineers of the Army, who for the time being is detailed to act as assistant (and in case of his absence from the District, or disability, the junior officer so detailed), shall, in event of the absence from the District or disability of the Commissioner, who shall for the time being be detailed from the Corps of Engineers, perform all the duties imposed by law upon said Commissioner (26 Stat. 1113).

One of said Commissioners shall be chosen president of the Board of Commissioners at their first meeting and annually and whenever a vacancy shall occur (20 Stat. 103).

The Commissioners are in a general way vested with jurisdiction covering all the ordinary features of municipal government and are also members of the Zoning Commission (37 Stat. 974).

The expenditures of the District of Columbia are based upon estimates prepared annually by the Commissioners and submitted by them to Congress through the Bureau of the Budget. To the extent to which it shall approve of said estimates, Congress shall appropriate a portion out of the Treasury of the United States. The remainder of the amount of such approved estimates shall be levied and assessed upon the taxable property and privileges in said District other than the property of the United States and of the District of Columbia (act approved June 11, 1878; 20 Stat. 104). "All taxes collected shall be paid into the Treasury of the United States, and the same as well as the appropriations to be made by the Congress as aforesaid shall be disbursed for the expenses of said District, on itemized vouchers, which have been audited and approved by the auditor of the District of Columbia, certified by said Commissioners or a majority of them" (ib. 105). This act also provided that the cost of operation, development, and maintenance of the District of Columbia should be borne jointly by the United States and the District of Columbia upon a 50-50 basis. This ratio was in 1922 changed to a payment of 60 percent from the revenues of the District of Columbia and 40 percent by the United States and this provision

was repealed by act of Congress approved May 16, 1938. The act of July 16, 1947, provided for the fiscal year ending June 30, 1948, and for each fiscal year thereafter, that there was authorized to be appropriated as the annual payment by the United States toward defraying the expenses of the Government of the District of Columbia, the sum of \$12,000,000. By the act of May 18, 1954, Public Law 364, 83d Congress, this amount was increased to \$20,000,000, and further increased to \$23,000,000 by the Act of March 31, 1956, Public Law 460, 84th Congress. The remainder of the local expenses are borne by the revenues of the District of Columbia derived from taxation of private property and privileges.

Congress has by sundry statutes empowered the Commissioners to make building regulations, plumbing regulations, to make and enforce all such reasonable and usual police regulations as they may deem necessary for the protection of lives, limbs, health, comfort, and quiet of all persons, and the protection of all property within the District, and other regulations of a municipal nature.

While the District has a municipal form of government, Congress by various statutory enactments has treated it as a branch of the United States Government by including it in legislation applying to the executive departments, such as the Budget and Accounting Act, the act classifying the salaries of Federal employees, and the act providing for retirement of Federal employees.

All legislation affecting the District of Columbia must be passed by Congress under the provisions of the Constitution. The advice of the Commissioners is usually asked before such legislation is enacted.

¹ The Federation of Malaya joined the United Nations on 17 September 1957. On 16 September 1963, the name of the Federation of Malaya was changed to Malaysia, following the admission to the new federation of Singapore, Sabah (North Borneo) and Sarawak. Singapore became an independent State on 9 August 1965 and a Member of the United Nations the following month, on 21 September.

² Syria was an original member of the United Nations from 24 October 1945. Following a plebiscite held on 21 February 1958, Syria and Egypt joined in establishing the United Arab Republic, which continued as a single member of the United Nations. On 13 October 1961 Syria, having resumed its status as an independent state, also resumed its separate membership in the Organization.

³ Egypt was an original Member of the United Nations from 24 October 1945. Following a plebiscite held on 21 February 1958, the United Arab Republic was established by a union of Egypt and Syria and continued as a single Member of the United Nations. On 13 October 1961 Syria, having resumed its status as an independent State, resumed its separate membership.

⁴ Tanganyika was a Member of the United Nations from 14 December 1961 and Zanzibar was a Member from 16 December 1963. Following the ratification, on 26 April 1964, of Articles of Union between Tanganyika and Zanzibar, the United Republic of Tanganyika and Zanzibar continued as a single Member of the United Nations, later changing its name to United Republic of Tanzania.

SECURITY COUNCIL

The Security Council is composed of five permanent members and six non-permanent members,⁵ elected by the General Assembly for two-year terms. Nonpermanent members are not eligible for immediate reelection.

Permanent Members:

China
France
U.S.S.R.
United Kingdom
United States

Nonpermanent Members:

Bolivia (through 1965)
Ivory Coast (through 1965)
*Jordan (through 1965)
**Malaysia (through 1965)
Netherlands (through 1966)
Uruguay (through 1966)

Presidency:

The Presidency of the Security Council, in accordance with its rules of procedure, rotates each month in the English alphabetical order of the names of the member States.

Military Staff Committee:

Composed of the Chiefs of Staff (or their representatives) of the five Permanent Members of the Security Council: China, France, U.S.S.R., United Kingdom and the United States. The chairmanship rotates in the same manner as the presidency of the Security Council.

Disarmament Commission:

Under the resolution adopted by the General Assembly at its thirteenth regular session on 4 November 1958, the Disarmament Commission is composed of all the members of the United Nations.

ECONOMIC AND SOCIAL COUNCIL

The Economic and Social Council is composed of eighteen members,⁶ six of which are elected each year by the General Assembly for a three-year term of office. Retiring members are eligible for immediate re-election.

Algeria (through 1966)
Argentina (through 1965)
Austria (through 1965)
Canada (through 1967)
Chile (through 1966)
Czechoslovakia (through 1965)
Ecuador (through 1966)
France (through 1966)

Pakistan (through 1967)
Peru (through 1967)
Romania (through 1967)
USSR (through 1965)
United Kingdom (through 1965)
United States (through 1967)

TRUSTEESHIP COUNCIL

Composed of Member States administering Trust Territories, permanent members of the Security Council which do not administer Trust Territories, and enough other non-administering countries to provide a balance between countries administering Trust Territories and those that do not. The latter are elected by the General Assembly for a term of three years.

Countries Administering Trust Territories:

Australia	United Kingdom
New Zealand	United States

Permanent Members of the Security Council not Administering Trust Territories:

China France Union of Soviet Socialist Republics

Country not Administering Trust Territories Elected by the General Assembly:

Liberia (until 1966)

⁵Regarding the two-year term 1965-66, it was agreed that Jordan would serve in 1965 and Mali in 1966.

⁶The two-year term 1964-65 was divided between Czechoslovakia and Malaysia, Czechoslovakia serving in 1964 and Malaysia in 1965.

⁷During its Eighteenth Session in 1963, the General Assembly approved amendments to the Charter which would enlarge the membership of the Security Council from 11 to 15 and the membership of the Economic and Social Council from 18 to 27. Under article 108 of the Charter, the amendments were to become effective when ratified by two-thirds of the members of the United Nations, including the five permanent members of the Security Council. These requirements were completed and the amendments came into effect on 31 August 1965. Elections will be held during the Twentieth Session of the General Assembly to fill both the new seats and those which will become vacant on 31 December 1965. The term of office of these members of the Councils will begin on Jan. 1, 1966.

INTERNATIONAL COURT OF JUSTICE

The International Court of Justice is the principal judicial organ of the United Nations. All Members of the United Nations are automatically parties to the Statute of the International Court of Justice. Other states can refer cases to the Court under conditions laid down by the Security Council. Except for judicial vacations, the Court is permanently in session at The Hague, Netherlands. Judges are elected by the General Assembly and the Security Council, voting independently, for a term of nine years and are eligible for reelection.

RULES GOVERNING PRESS GALLERIES

1. Administration of the press galleries shall be vested in a Standing Committee of Correspondents elected by accredited members of the galleries. The Committee shall consist of five persons elected to serve for terms of 2 years. Provided, however, that at the election in January 1951, the three candidates receiving the highest number of votes shall serve for 2 years and the remaining two for 1 year. Thereafter, three members shall be elected in odd-numbered years and two in even-numbered years. Elections shall be held in January. The Committee shall elect its own chairman and secretary. Vacancies on the Committee shall be filled by special election to be called by the Standing Committee.

2. Persons desiring admission to the press galleries of Congress shall make application in accordance with Rule 34 of the House of Representatives, subject to the direction and control of the Speaker and Rule 34 of the Senate, which rules shall be interpreted and administered by the Standing Committee of Correspondents, subject to the review and approval by the Senate Committee on Rules and Administration.

3. The Standing Committee of Correspondents shall limit membership in the press galleries to bona fide correspondents of repute in their profession, under such rules as the Standing Committee of Correspondents shall prescribe.

4. Provided, however, that the Standing Committee of Correspondents shall admit to the galleries no person who does not establish to the satisfaction of the Standing Committee all of the following:

(a) That his or her principal income is obtained from news correspondence intended for publication in newspapers entitled to second-class mailing privileges.

(b) That he or she is not engaged in paid publicity or promotion work or in prosecuting any claim before Congress or before any department of the government, and will not become so engaged while a member of the galleries.

(c) That he or she is not engaged in any lobbying activity and will not become so engaged while a member of the galleries.

5. Members of the families of correspondents are not entitled to the privileges of the galleries.

6. The Standing Committee of Correspondents shall propose no change or changes in these rules except upon petition in writing signed by not less than 100 accredited members of the galleries.

JOHN W. McCORMACK,

Speaker of the House of Representatives.

Approved by the Committee on Rules and Administration of the Senate.

B. EVERETT JORDAN, *Chairman.*

RULES GOVERNING PRESS PHOTOGRAPHERS GALLERY

1. Administration of the press photographers' gallery is vested in a Standing Committee of Press Photographers elected by accredited members of the gallery. The committee consists of six persons elected to serve for terms of two years. Three members shall be elected in odd-numbered years and three in even-numbered years. The committee shall be composed of one member each from the Associated Press, United Press International Newspictures, newsreel media, magazine media, newspapers, and an "at large" member. The "at large" member must be selected from a media not already represented on the committee. Elections will be held in January. Vacancies on the committee will be filled by special election to be called by the Standing Committee.

2. Persons desiring admission to the photographers' gallery of Congress should make application in accordance with Rule 35 of the House of Representatives, subject to the direction and control of the Speaker, and Rule 34 of the Senate, which rules will be interpreted and administered by the Standing Committee of Press Photographers subject to the review and approval of the Senate Committee on Rules and Administration.

3. The Standing Committee of Press Photographers shall limit membership in the photographers' gallery to bona fide news photographers of repute in their profession and to Heads of Photographic Bureaus under such rules as the Standing Committee of Press Photographers shall prescribe.

4. Provided, however, that the Standing Committee of Photographers shall admit to the gallery no person who does not establish to the satisfaction of the Committee all of the following:

(a) That any member is not engaged in paid publicity or promotion work or in prosecuting any claim before Congress or before any department of the Government, and will not become so engaged while a member of the gallery.

(b) That he or she is not engaged in any lobbying activity and will not become so engaged while a member of the gallery.

The above rules have been approved by the Committee on Rules and Administration.

B. EVERETT JORDAN,
Chairman, Senate Committee on Rules and Administration.

RULES GOVERNING RADIO AND TELEVISION CORRESPONDENTS' GALLERIES

1. Persons desiring admission to the Radio and Television Galleries of Congress shall make application to the Speaker, as required by rule XXXIV of the House of Representatives, as amended, and to the Committee on Rules and Administration of the Senate, as required by rule VI, as amended, for the regulation of the Senate wing of the Capitol. Applicants shall state in writing the names of all radio stations, television stations, systems, or news-gathering organizations by which they are employed and what other occupation or employment they may have, if any. Applicants shall further declare that they are not engaged in the prosecution of claims or the promotion of legislation pending before Congress, the Departments, or the independent agencies, and that they will not become so employed without resigning from the galleries. They shall further declare that they are not employed in any legislative or executive department or independent agency of the Government, or by any foreign government or representative thereof; that they are not engaged in any lobbying activities; that they do not and will not, directly or indirectly, furnish special information to any organization, individual, or group of individuals for the influencing of prices on any commodity or stock exchange; that they will not do so during the time they retain membership

in the galleries. Holders of visitors' cards who may be allowed temporary admission to the galleries must conform to all the restrictions of this paragraph.

2. It shall be prerequisite to membership that the radio station, television station, system, or news-gathering agency which the applicant represents shall certify in writing to the Radio and Television Correspondents' Galleries that the applicant conforms to the regulations of paragraph 1.

3. The applications required by paragraph 1 shall be authenticated in a manner that shall be satisfactory to the executive committee of the Radio and Television Correspondents' Galleries who shall see that the occupation of the galleries is confined to bona fide news gatherers and/or reporters of reputable standing in their business who represent radio stations, television stations, systems, or news-gathering agencies engaged primarily in serving radio stations, television stations, or systems. It shall be the duty of the executive committee of the Radio and Television Correspondents' Galleries to report, at their discretion, violation of the privileges of the galleries to the Speaker or to the Senate Committee on Rules and Administration, and, pending action thereon, the offending individual may be suspended.

4. Persons engaged in other occupations, whose chief attention is not given to the gathering or reporting of news for radio stations, television stations, systems, or news-gathering agencies primarily serving radio stations or systems, shall not be entitled to admission to the Radio and Television Galleries. The Radio and Television Correspondents' List in the CONGRESSIONAL DIRECTORY shall be a list only of persons whose chief attention is given to the gathering and reporting of news for radio stations, television stations, and systems engaged in the daily dissemination of news, and of representatives of news-gathering agencies engaged in the daily service of news to such radio stations, television stations, or systems.

5. Members of the families of correspondents are not entitled to the privileges of the galleries.

6. The Radio and Television Galleries shall be under the control of the executive committee of the Radio and Television Correspondents' Galleries, subject to the approval and supervision of the Speaker of the House of Representatives and the Senate Committee on Rules and Administration.

Approved.

JOHN W. McCORMACK,
Speaker, House of Representatives.

B. EVERETT JORDAN,
Chairman, Senate Committee on Rules and Administration.

RULES GOVERNING PERIODICAL PRESS GALLERIES

1. Persons desiring admission to the Periodical Press Galleries of Congress shall make application to the Speaker, as required by rule XXXIV of the House of Representatives, and to the Committee on Rules and Administration of the Senate, as required by rule VI for the regulation of the Senate wing of the Capitol; and shall state in writing the names of all newspapers or publications or news associations by which they are employed, and what other occupation or employment they may have, if any; and they shall further declare that they are not engaged in the prosecution of claims pending before Congress or the departments, and will not become so engaged while allowed admission to the galleries; that they are not employed in any legislative or executive department of the Government, or by any foreign government or any representative thereof; and that they are not employed, directly or indirectly, by any stock exchange, board of trade, or other organization, or member thereof, or brokerage house or broker, engaged in the buying and selling of any security or commodity, or by any person or corporation having legislation before Congress, and will not become so engaged while retaining membership in the galleries. Holders of visitor's cards who may be allowed temporary admission to the galleries must conform to the restrictions of this rule.

2. The applications required by rule 1 shall be authenticated in a manner that shall be satisfactory to the executive committee of the Periodical Correspondents' Association who shall see that the occupation of the galleries is confined to bona fide and accredited resident correspondents, newsgatherers, or reporters of reputable standing who represent one or more periodicals which regularly publish a

substantial volume of news material of either general or of an economic, industrial, technical or trade character, published for profit and supported chiefly by advertising, and owned and operated independently of any industry, business, association, or institution; and it shall be the duty of the executive committee at their discretion to report violation of the privileges of the galleries to the Speaker, or to the Senate Committee on Rules and Administration, and pending action thereon the offending correspondent may be suspended.

3. Persons engaged in other occupations whose chief attention is not given to the gathering or reporting of news for periodicals requiring such continuous service shall not be entitled to admission to the Periodical Press Galleries. The Periodical Correspondents' list in the CONGRESSIONAL DIRECTORY shall be a list only of persons whose chief attention is given to such service for news periodicals, as described in rule 2, except that admission shall not be denied if his other work is such as to make him eligible to the Press Galleries or Radio Correspondents' Galleries.

4. Members of the families of correspondents are not entitled to the privileges of the galleries.

5. The Periodical Press Galleries shall be under the control of an executive committee elected by members of the Periodical Correspondents' Association, subject to the approval and supervision of the Speaker of the House of Representatives and the Senate Committee on Rules and Administration.

JOHN W. McCORMACK,
Speaker, House of Representatives.

B. EVERETT JORDAN,
Chairman, Senate Committee on Rules and Administration.

HOW TO USE EDGE INDEX

Bend the pages of the book nearly double and hold them that way with your right hand as shown.

Locate the listing you want in the Edge Index.

Match up the 1- or 2-line symbol next to the listing you have selected with the corresponding 1- or 2-line symbol on the page edge.

OPEN THERE

The listings in the left-hand column of the Edge Index will be identified by the line symbols in the first or left-hand row. The listings in the right-hand column by the line symbols in the right-hand row.
